Professional Experience

Ektron, Jacksonville, FL (November 2011 to Present)

Application Engineer

- Went full-time with Ektron after contracting with them for 6 months
- Worked on many difficult Ektron integrations for companies such as Kodak, Medifast (trilogytrainingsystem.com), BNA (bna.com), Amadeus (Amadeus.com), MiTek (mii.com), Momentive (momentive.com), etc.
- Travelled frequently to various clients' headquarters to work directly with their team to implement solutions to their challenges. Also engaged in pre-sales discussions with their management team on how Ektron can help their business.

Independent Consultant, Jacksonville, FL (April 2003 to Present)

Web Development Engineer

Setup the following companies' entire online presence from the ground up. Content management, ecommerce, etc...

- National Academy of Sports Medicine(NASM) – nasm.org
- Health and Fitness Provider Network (HFPPN) – hfppn.com
- Dimensions of Dental Hygiene - dimensionsofdentalhygiene.com
- Work mainly in ASP.NET 1.1/2.0/3.5/4.0 for clients who need any kind of web development.
- Extensive knowledge of Content management software (Ektron CMS400 .NET, DotNetNuke, Umbraco, etc.).
- Manage and maintain a 9 server production environment (Windows 2000 Server, Windows Server 2003/2008), hosting all of customers' websites and custom applications.
- NASM
 - Corporate site, maintains and built entire site from ground up. Implemented a custom workshop locator to allow users to find an NASM professional in their geographic location. Created a school locator to allow prospective trainers to find a qualified school in their geographic location. Created a web service to allow NASM to share their proprietary content (articles, research, etc) with partner websites and also allow partners to connect to NASM and verify credentials of NASM professionals from their company websites.

- Nasm store, implemented ecommerce solution that processes more than 1,000 certification/product transactions per day.
- Providers.nasm.org – Secure online application only accessible to current customers. Allows user to apply to become an NASM provider and manage those applications via the website. Worked closely with one other developer to integrate all provider and ecommerce website activity into Microsoft Dynamics CRM for employee review.
- HFPN
 - Corporate and member site. Maintains and architected the entire site. Developed a secure member backend which includes a trainer/client management system, anatomy/exercise/video/program/recipe libraries. Created trainer enrollment system that utilizes the Authorize.net API and other partner trainer verification systems via web services.

PATLive, Tallahassee, FL (July 2001 to April 2003)
Web Designer/Developer

- Designed and developed web-based, database driven applications. Applications are written in ASP with a back-end SQL server database.
- Designed, developed, and managed company intranet, extranet and corporate websites.
- Provided technical support to customers who experience problems with our extranet.
- Assisted partnered companies with implementation of PATLive web-based products and services.
- Created graphics for marketing presentations and functions.
- Maintained three machine web farm that hosts all of PATLive web-based products and websites.
- Successfully initiated, documented and implemented three machine web farm migration from Windows NT to Windows Server 2003.

Education and Certification

Florida State University, Tallahassee, FL
B.S. degree, Computer Information Studies, Summer 2001
3.3 Cumulative GPA; 3.42 Major GPA
Certified Ektron Developer (December 2006)
